Programmable RF Thermostat & Receiver

Simple & User Friendly

-  Boost Function
-  Holiday Mode
-  Battery Operated
-  Keypad Lock
-  Portable or Wall Mounted
-  OpenTherm

CP4

USER FRIENDLY

User centered design is the key of COMBIPACK 4's development. With a large LCD and ergonomically shaped buttons, they are designed for easy use in the dark or for people with impaired vision.

PROGRAMMABLE

Allows flexible control by the users. Options available include 7 day, weekdays/weekend, or 24 hours. You can also choose to boost for 1 hour and a holiday mode is available for when you are away.

MULTI ZONE

Control up to 6 zones via OpenTherm® by adding more thermostats. Hot water control is also possible with addition of CP4-HW-OT to the system.

CONTEMPORARY

A comfortable and visually friendly interior is important to every home. Our designers have created this new sleek pure white casing, to be versatile and suit all interiors.

COST EFFECTIVE

Reduce your energy bills with time and temperature control of your heating & hot water - anywhere.

EASY INSTALLATION

The thermostat & receiver are pre-paired for your installer. As soon as the receiver is wired to your boiler, its ready to go.
